DORE SERIES

DORE is the most important version in the collection, where the elegance of the backrest and the soft line of the seat combine all the features of functionality and ergonomics, expressing them at their best.

DORE | PP1: The DORE-PP1 seats are equipped with a special version of armrests, known as PP1, for a touch of added convenience. These chair arms are constructed from durable polypropylene (PP), supported by a sturdy metal structure, ensuring both form and function. Their compact, single-piece design incorporates an integrated, generously sized cup holder.

DORE | PP2: The DORE-PP2 seats are equipped with a special version of armrests, known as PP2, for a touch of added convenience. These chair arms are constructed from durable polypropylene (PP), supported by a sturdy metal structure, ensuring both form and function. Their compact, single-piece design incorporates an integrated, generously sized cup holder.

Manual backrest reclining adjustment system (Standard)

The backrest unit can be reclined manually up to 8 degrees and fixed by the adjustment bolt system on the back of the metal main body.

Effortless backrest rocker mechanism by a pneumatic piston mechanism (optional) The reclining movement is produced by the spectator leaning against the backrest unit. Thanks to the pneumatic piston mechanism located under the seat unit, the backrest unit returns automatically to the upright position when the chair is vacated

DORE-VIP_{SERIES}

DORE VIP series of cinema seating is thoughtfully designed and upholstered in high-quality leather, offering a premium and opulent cinema experience that's second to none.

DORE VIP | PP1: The DORE-PP1 seats are equipped with a special version of armrests, known as PP1, for a touch of added convenience. These chair arms are constructed from durable polypropylene (PP), supported by a sturdy metal structure, ensuring both form and function. Their compact, single-piece design incorporates an integrated, generously sized cup holder.

DORE VIP | PP2: The DORE-PP2 seats are equipped with a special version of armrests, known as PP2, for a touch of added convenience. These chair arms are constructed from durable polypropylene (PP), supported by a sturdy metal structure, ensuring both form and function. Their compact, single-piece design incorporates an integrated, generously sized cup holder.
