The leading Turkish brand of quality Auditorium, Theatre, and Cinema Seating

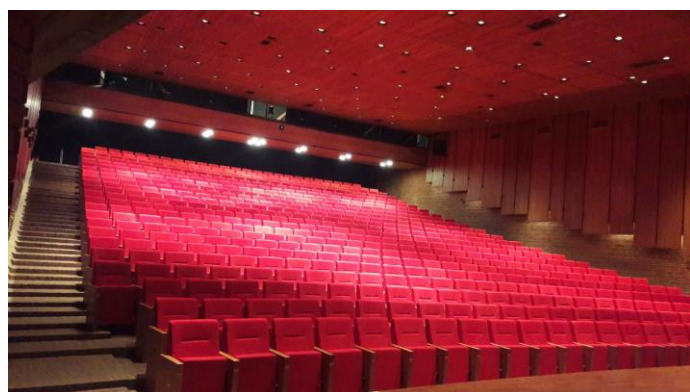

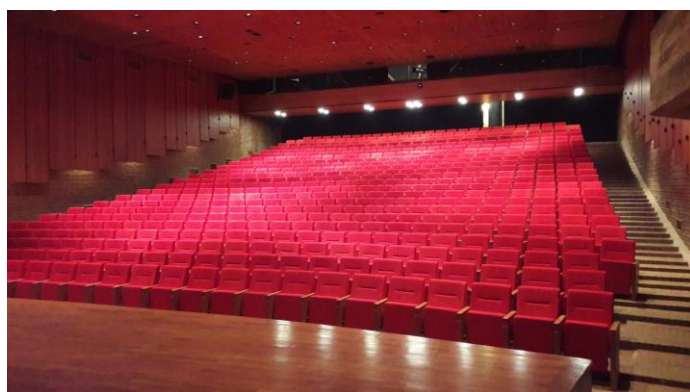

www.segasit.com

AQUA-F series auditorium seats are the top sellers, representing a bold, modern figure. Its dimensions guarantee comfort and livability. The series offers a luxurious look, maximum comfort, and function.

Its compact structure allows for ease of access and egress, and the extensive backrest options ensure maximum comfort and function. Designed to be comfortable and maintenance-free throughout its lifetime, this seat provides levels of comfort far beyond its size.

The combination of design and comfort makes the series the ideal choice to equip Auditorium and Theater Halls, Conference and Convention Centers, Performing Arts Centers, Corporate and Public Building Halls, Education and School Halls.

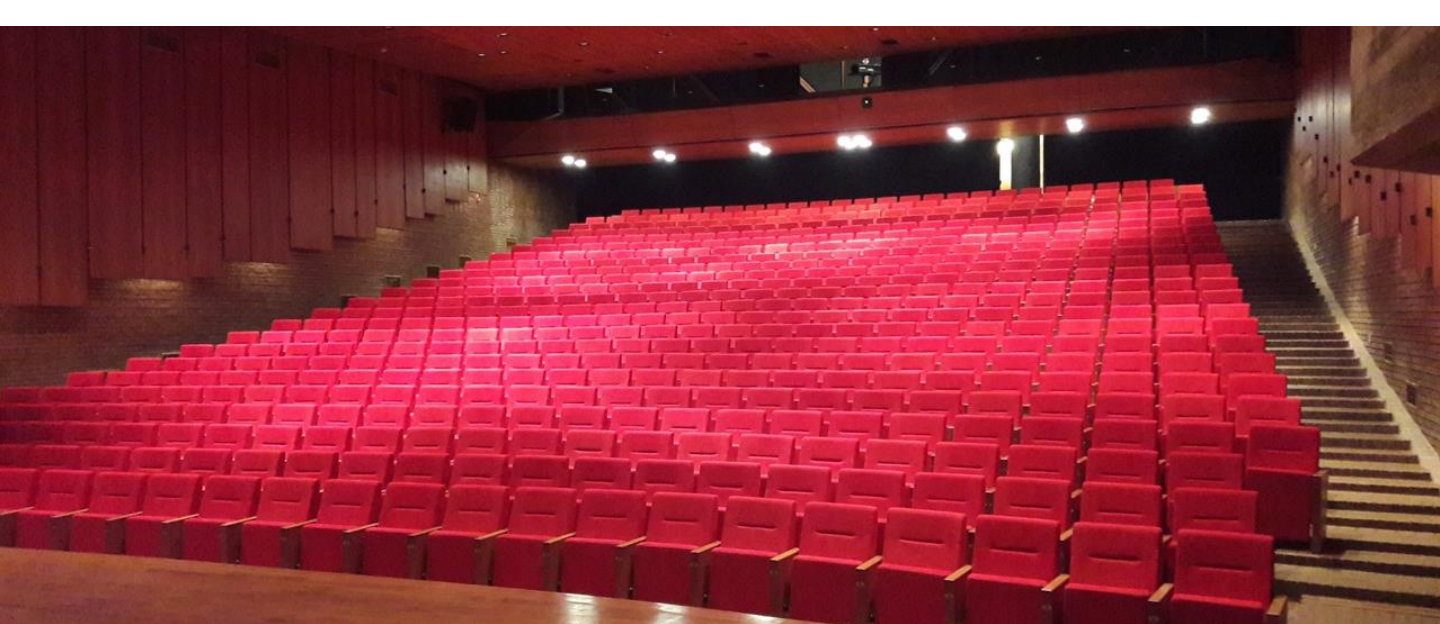

ROYAL-F series is manufactured to meet the needs of conference and theater halls and in ergonomic designs targeting comfort that fits the audience perfectly.

The series is in line with the needs of the investor and the audience.

It is enriched with

- *lateral legs,*
- *fabric or leather upholstery,*
- *backrest and seat unit wooden covers.*

DIMENSIONS (mm)

CHARACTERISTIC FEATURES

Dimensions

- Centre-to-centre dimension is 55 cm.
- The nominal space for the user is 49 cm.

Seat and Backrest units

- All paddings are produced with cold-molded CMHR polyurethane foam technology,
- The backrest and seat padding have a carefully crafted ergonomic design, with a density of 50-60 kg/m³.
- The seat and backrest padding is a single block of molded polyurethane foam that incorporates an internal metal frame structure to provide sitting comfort for a long time.
- Upholstered with a padded cover, removable by means of a zipper.
- Tip-up seat folds automatically with an inside weight balance system. Totally silent and maintenance-free.

Side Panels

- Fixed and shared armrest box in ergonomic design.
- Fully upholstered with a padded cover.

Structure

- The lateral feet are made of a 8 mm thick MDF box designed and produced to provide durability and long life.
- The lateral legs are fully upholstered with padded covers.
- The lateral legs are joined to a steel base and fixed to the floor using metric screws or other suitable types of anchorage for each type of surface.
- The fully upholstered backrest padding is fixed to a metal structure, which is joined to the lateral legs with a concealed insertion system to provide strong durability
- The system is very resistant and ensures the perfect alignment of the backrests when forming a row.
- The metal parts are painted with electrostatic powder paint. Coat thickness 80 microns $\pm$ 10.

Options

- Armrest-Varnished solid wood
- Backrest wooden cover-Beech plywood.
- Seat back wooden cover-Beech plywood perforated.
- Seat, row numbering, and logo embroidery.
- Variety of foam density.
