QUADRO SERIES

QUADRO chair combines versatility with exceptional finishing details to provide an extremely comfortable and stylish seating solution. Available for use on fixed and retractable tiers and flat-floor solutions.

OPTION FEATURES

The Quadro chair seamlessly blends versatility with exceptional finishing details, offering an extremely comfortable and stylish seating solution. It is suitable for both fixed and retractable tiers, as well as flat floor setups.

This series offers a wide range of optional elements, enabling customization to meet specific customer requirements. It includes options for lateral or central legs, fabric or leather upholstery, and both a backrest and a wooden cover for the seat unit.

Designed with a compact structure, the Quadro chair facilitates easy access and egress. The various backrest options provide maximum comfort and functionality. The seat and backrest work in harmony with the armrest—the seat opens when the armrest is pushed down. Thanks to its folding design, the entire chair measures just 141 mm when closed.

The combination of design and comfort makes this series an ideal choice for equipping auditoriums and theater halls, conference and convention centers, performing arts centers, corporate and public building halls, as well as education and school halls.

SKY SERIES

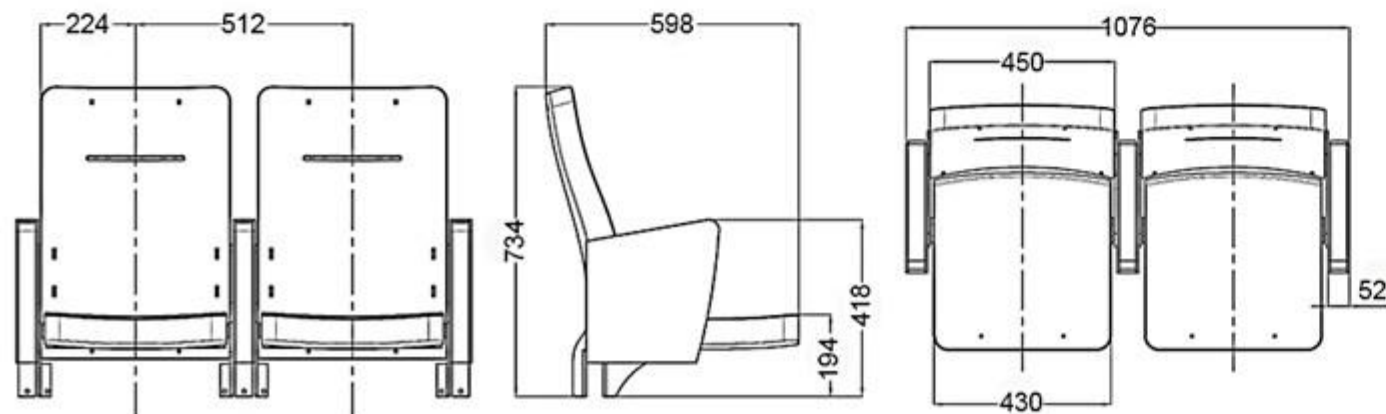

SKY lecture theater seat is renowned for its comfort, function, and versatility. It is ergonomically shaped with a contoured back and focuses particular attention on lumbar support and encouraging correct posture.

SKY lecture theater seat is renowned for its comfort, function, and versatility. It is ergonomically shaped with a contoured back and focuses particular attention on lumbar support and encouraging correct posture.

It is available as a floor, beam, or riser-mounted seat and is virtually maintenance-free. Lecture theatres achieve excellent utilization of space with this seat which is suitable for both radial and straight layouts.

The combination of design and comfort makes the series the ideal choice to equip Auditorium and Theater Halls, Conference and Convention Centers, Performing Arts Centers, Corporate and Public Building Halls, and Education/School Halls.
