LED Step & Stair Lighting

SEGASit offers LED stair lighting solutions with wide range of models and versions to meet staircase lighting requirements of cinema, auditorium, conference and theater halls.

The Cinema and Theater Series LED Step Lighting is an aluminum stair profile with single color LED. Perfect for theater applications this profile also offers optional lighted aisle marker with a number, letter or symbol.

SEGASit LED stair lighting are designed not only to illuminate your stairs but also to make it safe.

The LED step lighting system that provides a continuous linear lighting effect is ideal for theater step lighting and Emergency Safe Path Way Lighting.

We offer a wide range of LED aisle lighting solutions for your staircase lighting requirements.

LED Step & Stair Lighting

LIGHTING SYSTEM

The whole system operates by 12V DC, making the whole system extra safe. Instant start, No flicker, No noise, Low work temperature, Low power consumption.

Various single colors of LED can be used and can be color selected to your choice of RED – BLUE – COLD WHITE – WARM WHITE- GREEN – AMBER.

UP-LIGHTING System is a LED lighting that provides a continuous linear lighting effect for a streamlined modern finish.

The illumination is provided by a total of 2 diode LED lights located on the left and right head of the lighting chamber. For energy saving, each diode LED light source used in the system is a 18mA with total 36mA. Diode LED light sources are enclosed with polycarbonate black color cover to be invisible.

The illumination from invisible lateral light sources are carried along in the lighting chamber as a continuous and homogeneous line by a special solid core fibre optic rod.

Don't need to dimmer the UP-lighting system. Thanks to the system is not lighting the outside, the illumination can be seen only from eyes of spectators.

Optional DOWN-LIGHTING System is an LED lighting that offers a pinpoint down lighting effect.

Optional illuminated row indicator is perfect for theater applications this profile also offers optional lighted aisle marker with a number, letter or symbol.

BODY

Stair nosing body is made of anodized aluminum profile for use with 90° step angles-eliminates problem of rusting. Standard anodizing color is BLACK.

Non-slip rubber strip is mounted on the tread surface for foot slippage.

All illumination chambers are enclosed with polycarbonate transparent covers.
