OSCAR Line | MW-BSW

Dimensions

- Centre-to-Centre dimension is 53 cm.
- The nominal space for user is 48 cm.

Seat and Backrest units

- All paddings are produced with cold moulded CMHR polyurethane foam technology,
- Both backrest and seat padding has a carefully crafted ergonomic design, density 50-60 kg/m³.
- The seat padding is a single block of molded polyurethane foam that incorporates an internal metal frame structure.
- The backrest padding is a single block of molded polyurethane foam that incorporates an internal metal frame structure which, due to its shape and composition, offers great back and lumbar support.
- Upholstered with padded cover, removable by means of a zipper.
- The fully upholstered backrest and seat padding are incorporated with a 12 mm thick varnished beech plywood backboard
- Tip-up seat folds automatically with inside weight balance system. Totally silent and maintenance free.

Armrests

- Fixed and shared armrest with a curved design.
- Made of decorative varnished beech solid wooden.

Structure

- The metal mainframe as a single piece is made of an 8 mm thick U shape steel plate that is supported with a central leg made of perforated cylinder steel tube designed and produced to provide durability and long life.
- The central leg is joined to a 6 mm thick steel base and fixed to the floor using metric screws or other suitable types of anchorage for each type of surface.
- The fully upholstered backrest padding, which is joined to a metal structure, is fixed to the metal mainframe with a concealed insertion system that provided strong durability.
- The system is very resistant and ensures the perfect alignment of the backrests when forming a row.
- The metal parts are painted electrostatic powder paint. Coat thickness 80 microns \pm 10.

Options

- Seat, row numbering and logo embroidery.
- Variety of foam density.
- Variety of fabrics with abrasion, fading and non-flammability characteristics.
- Variety of high-quality faux and genuine leather.
