## SERIES

**SEGASİT** ©

The leading Turkish brand of quality Auditorium, Theatre, and Cinema Seating

[www.segasit.com](http://www.segasit.com)

*ROYAL series is the most important in the collection, where the classic elegance of the backrest and the soft curve of the seat seamlessly combine functionality and ergonomics.*

*Its compact structure allows for easy access and exit, while the wide range of backrest options ensures maximum comfort and utility.*

*Designed for long-lasting comfort and minimal maintenance, this seat offers a level of comfort that exceeds expectations, given its size.*

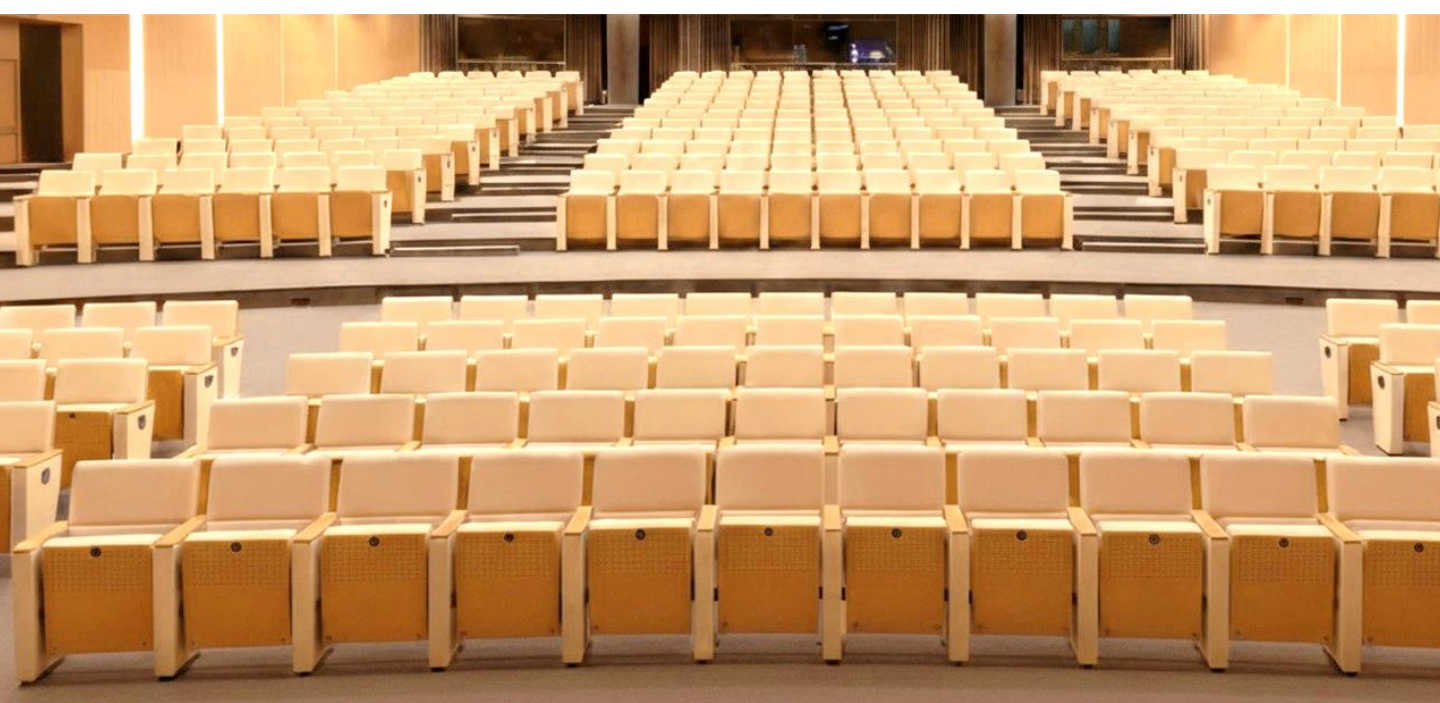

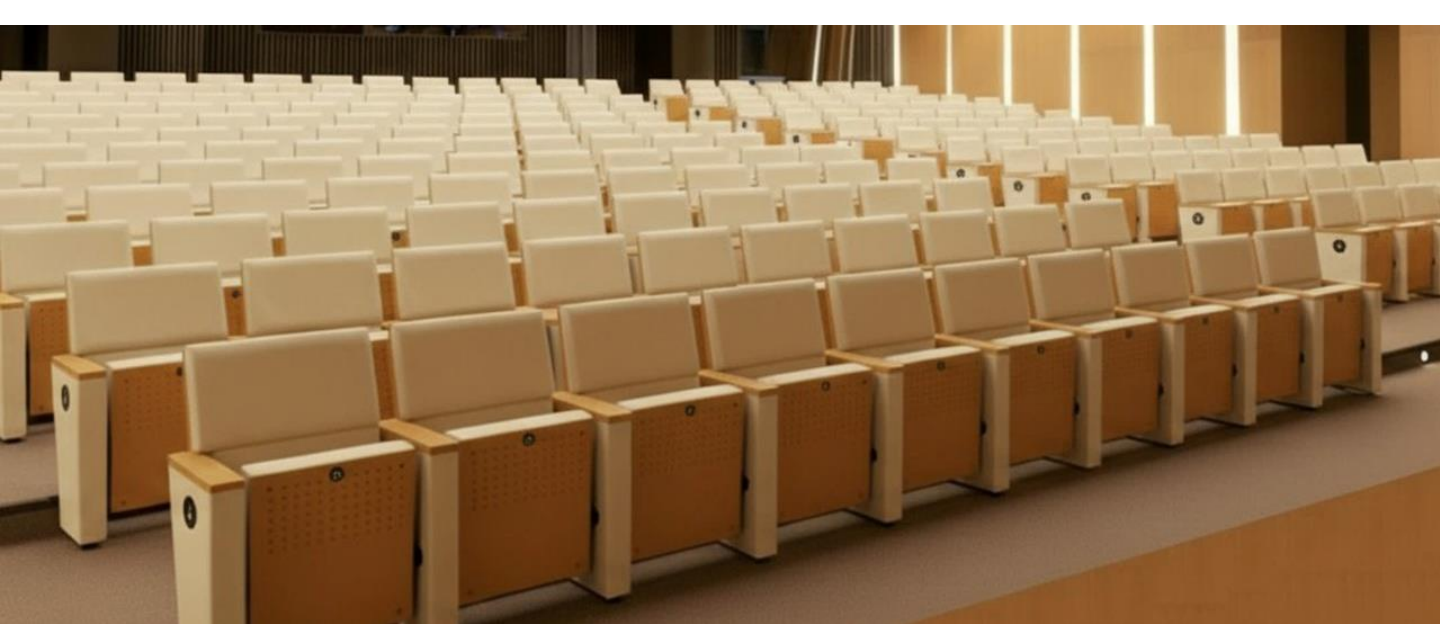

*ROYAL-F series is manufactured to meet the needs of conference and theater halls and in ergonomic designs targeting comfort that fits the audience perfectly.*

*The series is in line with the needs of the investor and the audience.*

*It is enriched with*

- *lateral legs,*
- *fabric or leather upholstery,*
- *backrest and seat unit wooden covers.*

## DIMENSIONS (mm)

## CHARACTERISTIC FEATURES

### Dimensions

- Centre-to-Centre dimension is 56 cm.
- The nominal space for the user is 48 cm.

### Seat and Backrest units

- All paddings are produced with cold-molded CMHR polyurethane foam technology,
- Both backrest and seat padding have a carefully crafted ergonomic design, with a density of 50-60 kg/m<sup>3</sup>.
- The seat padding consists of a single block of molded polyurethane foam, supported by an internal metal frame and cord system for prolonged sitting comfort.
- The backrest is made of beech plywood, incorporating two fully upholstered, open-cell polyurethane foam cushions which, due to their shape and composition, offer great back and lumbar support.
- Upholstered with a padded cover, removable using a zipper.
- Tip-up seat folds automatically with an inside weight balance system. Silent and maintenance-free.

### Armrests

- Fixed and shared armrest box in ergonomic design.
- Fully upholstered with a padded cover.
- Optionally, the seat can be equipped with side legs that come with 20mm thick armrests made of varnished wood.

### Structure

- The lateral feet are made of a 8 mm thick MDF box designed and produced to provide durability and long life.
- The lateral legs are fully upholstered with padded covers.
- The lateral legs are joined to a steel base and fixed to the floor using metric screws or other suitable types of anchorage for each type of surface.
- The beech plywood backboard, incorporated with a fully upholstered foam cushion, is fixed to the lateral legs with a concealed metal slide insertion system that provides strong durability.
- The system is very resistant and ensures the perfect alignment of the backrests when forming a row.
- The metal parts are painted with electrostatic powder paint. Coat thickness: 80 microns ± 10.

### Options

- Backrest cover: Beech plywood.
- Seat back cover: Beech plywood perforated.
- Seat, row numbering, and logo embroidery.
- Variety of foam densities.
- Variety of fabrics with abrasion, fading, and non-flammability characteristics.
- Variety of high-quality faux and genuine leather.
